## Cryptography, encrypt, decrypt

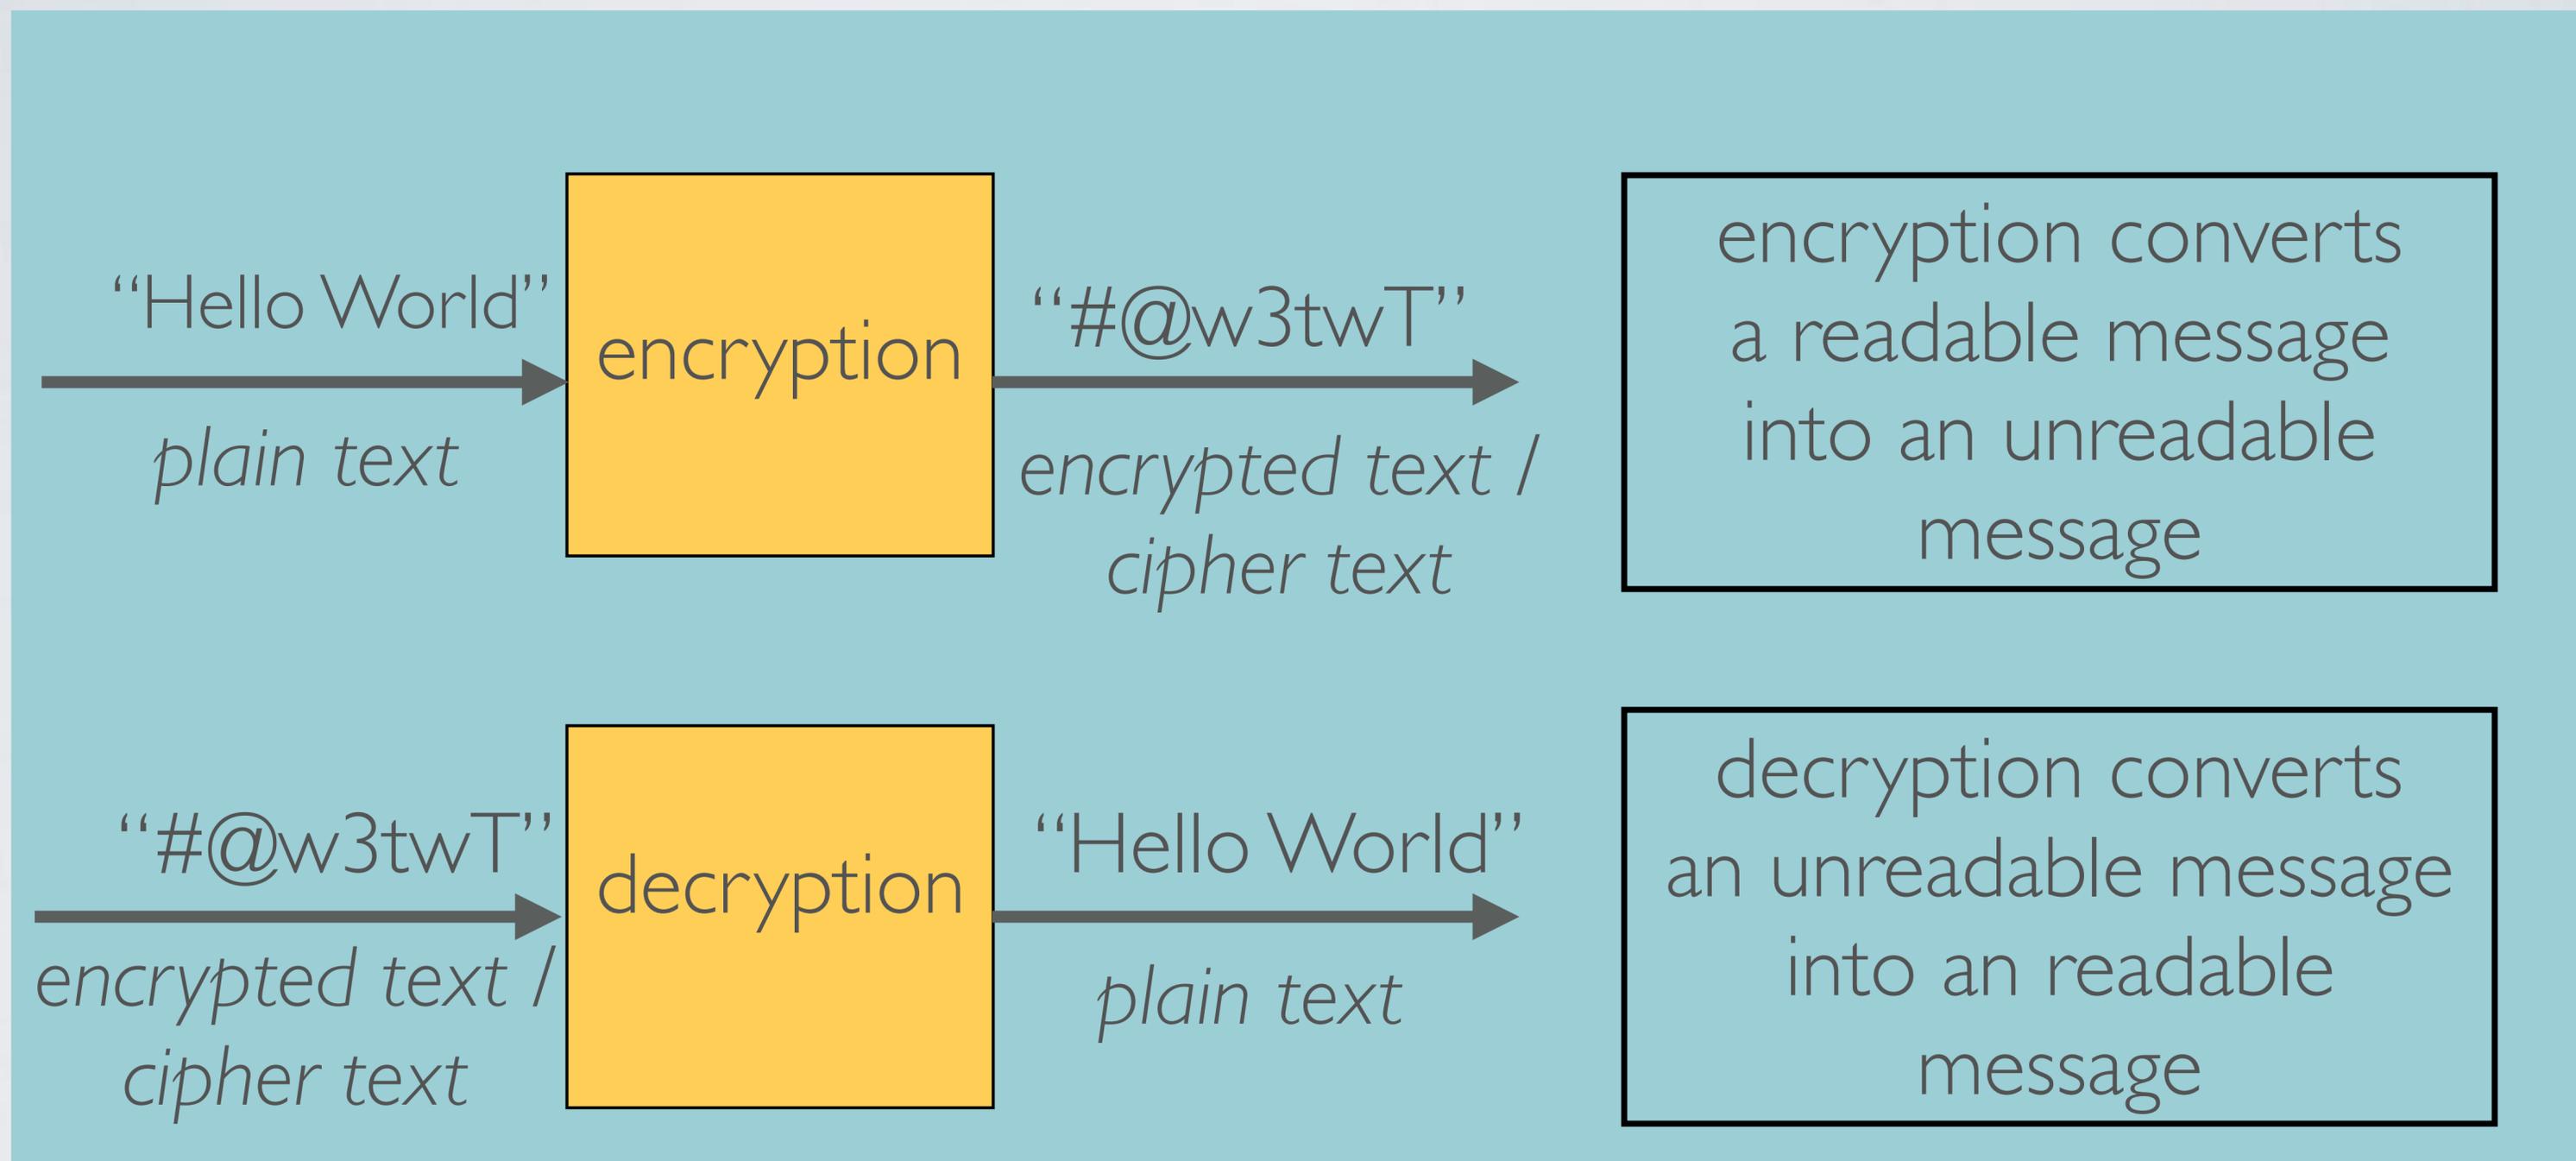

# **BLOCKCHAIN TUTORIAL 4**

Cryptography, encrypt, decrypt

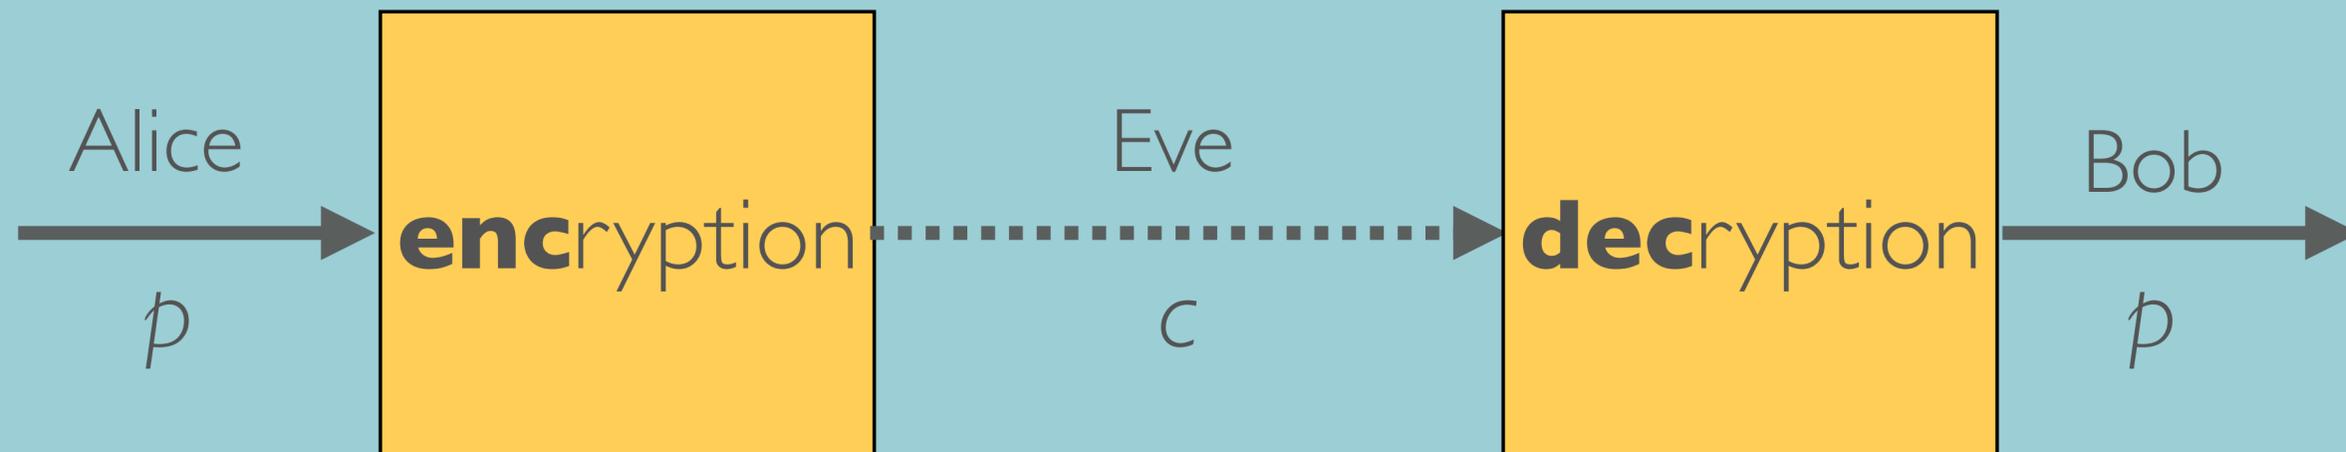

# CRYPTOGRAPHY

- Cryptography converts data into a particular form so that only those for whom it is intended can read and process it. The converted data is however unreadable for an unauthorized user.
- In cryptography the fictional characters **A**lice, **B**ob, **C**arol, **D**ave and **E**ve are used to make it easier for people to understand certain cryptography implementations.
- The character Eve is often used to represent an eavesdropper (she is Evil)

# ENCRYPTION, DECRYPTION

## ALICE, BOB, CAROL, DAVE AND EVE

Alice  $ENC(p) = c$  ..... Bob  $DEC(c) = p$
